Reference: Docket No. 97-463
SprintCom, Inc.

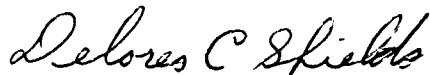

I am absolutely positively opposed to the construction of a 143 foot monopole in Riddleview Park in Newport, Campbell County, Kentucky.

The residents of this South Newport area do not need or want an unsightly, ugly, and potentially dangerous monopole in our park which was developed and dedicated for children, not the Sprint Co., the politicians, and cell phone users.

My late husband gave this land to the City of Newport in order for the City to develop a playground for the children of Newport. He could have built additional houses on this land when he built the houses on Douglas Drive, but he felt that a park for children was more deserving. He did not ever intend for this land to be used for the financial enhancement of Sprint nor to be given away by the government bureaucrats.

Do you have absolute research data that proves conclusively that this ugly and unneeded tower for cell phones will not directly or indirectly adversely affect the health of all of the residents of this area?

I vote NO!

Delores C. Shields
16 Douglas Drive
Newport, KY 41071

P.S. The attached maps of the area and monopole location as related to the existing houses is very poor - is this an example of Sprint's concern and care for the residents of South Newport?

To Whom It May Concern:

RE: **Docket # 97-463** Sprint Tower to be built adjacent to our property

We received your certified letter regarding the building of a Sprint Transmitter/Receiver within 500 feet of our property.

We DO have a concern about what provisions for drainage off of the hill are going to be made so as not to inundate our property with water.

Our former neighbors had done some landscaping before we bought our property in mid-June of 1992. (It was nice and dry then!) Within months of our arrival, they sold their property to the current residents. When the Fall rains began, we noticed how all of the water from our neighbor's property was running right into our yard and our basement! Our current neighbors did not cause this problem, nor were we aware that there was a problem when we purchased. Nevertheless, it has taken us years of home improvements and maintenance to remain relatively water-tight at this point. We would like to move on to a newer, larger home soon and do not need NEW problems to deal with.

So, we are very concerned about what your construction will do to the value and saturation levels of our property.

We would also like the promptness of a reply, as you have expected of us. Please let us know if there are going to be any public hearings about this proposal, since we would be very interested in attending.

Sincerely,

Mr. & Mrs. Wm. H. Huneke

**RE: Public Notice - Kentucky Public Service Commission
Docket No. 97-463**

Dear Mr. and Mrs. Huneke:

SprintCom, Inc., has applied to the Kentucky Public Service Commission for a Certificate of Public Convenience and Necessity to construct and operate a new facility to operate a personal communications telecommunications service ("PCS"). The facility will include a 143 foot monopole, with attached antennas extending upward for a total height of 150 feet; and an equipment shelter to be located in Riddleview Park, Newport, Campbell County, Kentucky. A map showing the location of the proposed new facility is enclosed. You are being notified because you own property within a 500-foot radius of the proposed monopole.

The Commission invites your comments regarding the proposed construction. You also have the right to intervene in this matter. Your initial communication to the Commission must be received by the Commission within twenty (20) days of the date of this letter as shown above.

Your comments and request for intervention, if any, should be addressed to: Executive Director, Kentucky Public Service Commission, P.O. Box 615, Frankfort, Kentucky 40602. Please refer to **Docket No. 97-463** in your correspondence.

Sincerely,

Mark W. Dobbins
Sandra F. Keene
